iBUYPOWER needed granular SEO advice and implementation as we transitioned our website. Ignite's services, lead by Khalil and his team, helped us diagnose several issues regarding the back-end web development, ultimately boosting our SEO, while going above and beyond to transfer knowledge share to ensure our long-term success.

What were your goals for this project?

To diagnose fundamental SEO issues, while ensuring effective knowledge share. To increase and sustain our top ranking pages and keywords. To coordinate reach-out/PR campaigns for industry-related editorials.
