The Client

Please describe your company and your position there.

The Challenge

For what projects/services did your company hire Ignite Visibility?

We intend to be a household name. We have this intention because cost can't be the reason a kid is kept out of youth sports. Ignite Visibility was hired to help expand our reach, share our intention, and do so strategically. By becoming a household name, and generating the necessary resources, every kid will have the chance to play sports.

What were your goals for this project?

Our goals for working with Ignite Visibility were to, at a minimum, 5x our social media following within 12 months. Amplifying the visibility of our organization, our mission, and our impact was the first step in reaching this goal.

The Approach

How did you select Ignite Visibility?

I'd built a relationship with one of the founders outside of my role as board president. When Every Kid Sports made the decision to re-brand and set sights on a national reach, we knew we needed help doing so. It was perfect timing for both organizations.

Describe the scope of their work in detail.

Ignite Visibility has added structure and strategy to our social media efforts. Through scheduling, editorial, creative, and strategy, they've provided a full-service plan that's flawlessly executed.

What was the team composition?

The team assigned to our organization communicates clearly, provides strategic direction, and is genuinely fun to work with.

The Outcome

Can you share any outcomes from the project that demonstrate progress or success?

We've dramatically increased the visibility of our organization. Each month we're updated with growth numbers, detailed metrics, and strategic direction in response to the data, and each month we're introduced to an ever-expanding pool of potential supporters.

How effective was the workflow between your team and theirs?

Easy. Informative. Well-prepared. Thorough. And fun.

What did you find most impressive about this company?

The enthusiasm for the industry they're in, their knowledge of it and how to navigate it, and the support they've provided Every Kid Sports beyond the services we've contracted with them.

Are there any areas for improvement?

Nothing that would remotely overshadow all of the positive outcomes thus far.
